

Technical Information

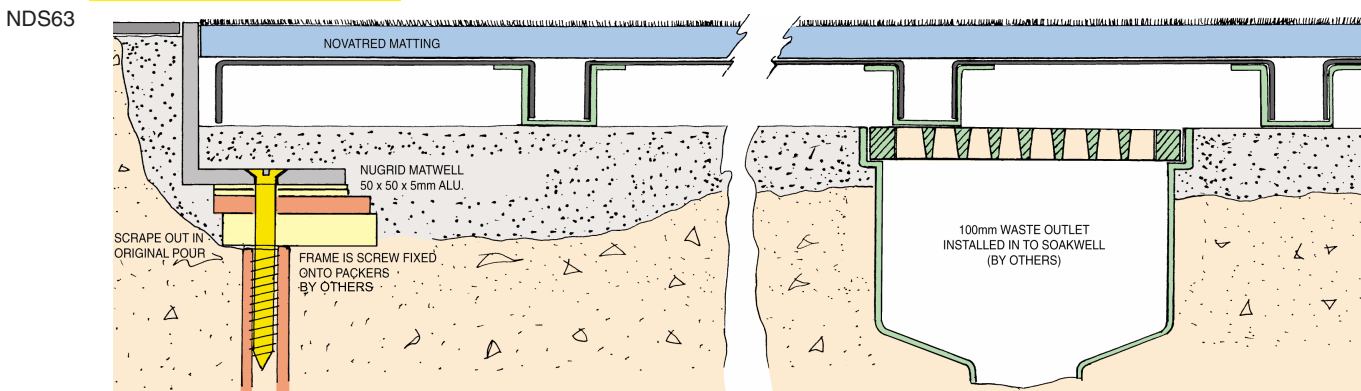

SET DOWN INSTALLATION - TILES/VINYL/CARPET

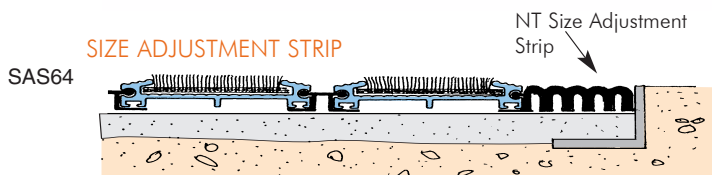

SURFACE MOUNT INSTALLATION - CONCRETE/TILES/VINYL/CARPET

NUGRID DRAINAGE SYSTEM

SIZE ADJUSTMENT STRIP

Novatred 1000 - the most economical matting.

It is designed for medium duty installations.

Colours available: Black & Grey.

Extra lead time: Blue, Green, Brown & Red.

Standard Mats

Novatred 2000 is now manufactured in standard sizes for quick and easy installation.

Standard sizes are: 1220mm x 915mm (4'x 3')

1830mm x 915mm (6'x 3')

2135mm x 915mm (7'x 3')

Colours available: Onyx, Granite and Topaz.

Standard Mat range sizes are nominal and frame sizing is to be confirmed at time of order.

Optimising Performance

The performance of Novatred can be optimised by dividing up the width of the matting into three or more sections of equal dimension so that the matting sections can be interchanged to give greater longevity.

An aluminium divider 'T' bar is optional and can be a design feature in segmented radiating layouts.
