

CARPET STAIRNOSINGS

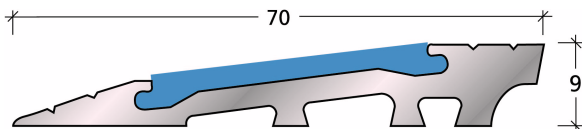

Carpet Stair Nosings

Australian registered design 94855

- A range of proven lifecycle performance designs for neater finish with trims over edges of carpets.
- Easily installed with a precut and drilling service available.
- For safety underfoot, security and long term durability always install direct to the stair tread.

Carpet Trims

"Elite" carpet trims are designed for those areas where heavy foot traffic and wheeled trolleys etc require a safer transition to other floor coverings.
