Superior slip resistance when wet.

** Price Premium applies – please check availability

WARNING

The antislip properties and durability of the inserts are reduced when wet or subject to oil/ grease contamination. Please consult us.

LIGHTED NOSING SYSTEMS

The Spectrum Advance Interlock **LED** system is the result of extensive research and development. The modular electrical system combined with an insulating nosing system incorporates the safety and durability of the proven stair systems and provides an easily assembled, extremely **low maintenance**, maximum appearance with **low energy** and running costs.

Features

- All modular electrical componentry.
- Translucent nosing system for maximum safety both ascending and descending.
- Quiet non metallic safety stair treads
- Wide colour range of inserts
- Aisle lighting systems.
- Co-ordinating range of edge trims for wiring available
- Complementary technical advisory service.
