

SLIMLINE STAIR PROFILES

Slimline Series

A range of quality stair edgings for use with thinner floor coverings which abuts the rear edge of the nosing with a proven life cycle performance.

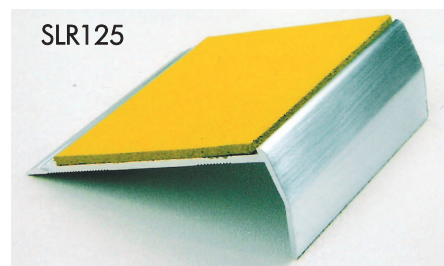

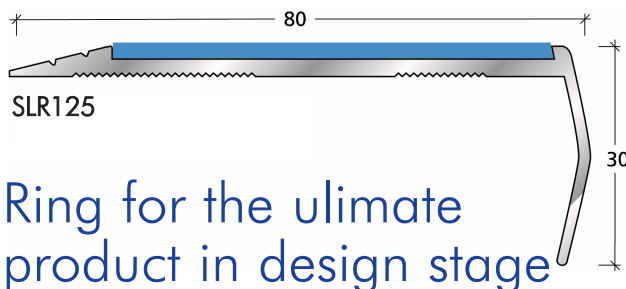

ANTISLIP INSERTS
All inserts conform to the recommendations of SAA Handbook HB197-1999
CSIRO Test Reports available on request.

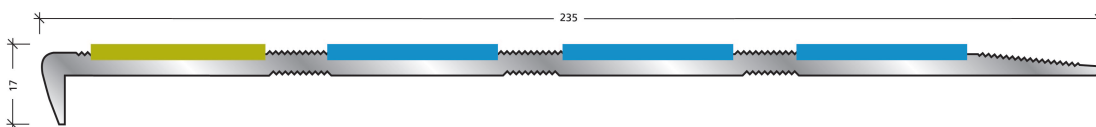

Ramp Profile

The ramp profiles LT4 & SLR125 are designed to meet the need for safety edging where no floor covering is to be installed or for upgrading existing steps. All profiles shown full size in mm.
