**NEW FINERIBB CCRG STAIRNOSING**

**OLD PLAIN CCRG STAIRNOSING**

## **NEW CCRG Fineribb vs Plain CCRG**

Novaproducts Global has moved to a NEW Fineribbed Stairnosings that is specially designed to suit the Sandy, Abrasive environment and Look Newer for longer.

The New CCRG is made with a special commercial grade aluminium and an extra grade anodised surface for a tough finish to allow for installation in highly trafficable areas.

Unlike the OLD CCRG, the Fineribbed CCRG hides any scratches from the general wear as well as giving extra grip for higher safety.
